In-flight Wellness Kits Truly Reliable, Truly Assuring.

Stopping the spread of hazards starts with you – it is as simple that. And nothing beats protective clothing and wellness kits in ensuring this.

Amid the pandemic, people across the world have realised the importance of Wellness Kits. Making air-travel safe, wearing a Wellness Kit has been mandatory.

This is where, we at VTC come into picture. As India's one of the largest providers of in-flight Wellness Kits, we leave no stone unturned to ensure the safety of both crew and passengers.

The Wellness Kit and other protective items that we provide are among the best in the market.

Etihad Airways, IRCTC – Indian Railways, Government of India, Air India, and Indigo Airlines are some of our esteemed clients and that speaks a lot about our quality standards. We also cater to premium hotels and restaurants.

Trustworthy Wellness Kits

When making Wellness Kit, Sourcing proper materials is one of the most difficult aspects of the process. Due to the enormous demand for face masks, gowns, and other equipment during the COVID-19 epidemic, this has become a bigger problem. Making the appropriate material choice is also a critical component of producing Wellness kits.

With our years of experience and long-term relations with trustworthy suppliers, we have successfully overcome these challenges.

Our products are CE certified and ESMA/ECAS approved, USFDA-compliant, FDA-licensed for both drugs and cosmetics, ISO certified, and more. We offer the world's best packaging in sachets.

Assurance of Reliable Packaging

When it comes to Wellness Kit, the quality of the material itself is just one aspect of the whole thing. Reliable packaging plays a critical role in ensuring the trustworthiness of the kit. To ensure the highest possible standard of packaging, we provide kits in sachets and bottles. We've developed sachets with an easy-to-tear design & 100% recyclable material.

Strongly committed to human well-being as well as environment, we are the only manufacturer in the world to offer 100 percent recyclable sachets.

Growing Globally, Rapidly

With rapid global expansion, we are positively impacting different industries and businesses across the world. Meeting the growing demand, we have expanded our product range to include dental and shaving kits.

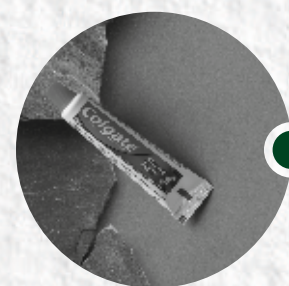

INDEX
